chatted with VJ again today. Him coming onto the scene has re inspired me and given me direction on the SR project. He has helped me see a larger vision. A brand that people can come to trust and rally behind. Silk Road chat, Silk Road exchange, Silk Road credit union, Silk Road market, Silk Road everything! And it's been amazing just talking to a guy who is so intelligent and in the same boat as me, to a certain degree at least. So, today we talked mostly about the exchange, what to charge, boundary conditions, etc. Then I went for a surf with Billy Becket. Caught a couple of good waves, chatted with him took some wipe outs, and went in. Soon after, I ran around the city with Ashely and Kelly. We drank some beer, walked around the city and botanical gardens. I then went out with Jessica. Our conversation was somewhat deep. I felt compelled to reveal myself to her. It was terrible. I told her I have secrets. She already knows I work with bitcoin wich is also terrible. I'm so stupid. Everyone knows I am working on a bitcoin exchange. I always thought honesty was the best policy, and now I don't know what to do. I should've just told everyone I am a freelance programmer or something, but I had to tell half truthes. It felt wrong to lie completely so I tried to tell the truth without revealing the bad part, but now I am in a jam. Everyone knows too much. Dammit.
